Sayama Green Tea School

At the closest Japanese tea producing region to Tokyo, you can enjoy various tea experiences, such as tea picking. We will arrange the experience program according to your preferences!

How is Japanese tea made?
What's the secret to making delicious tea? If you come to Sayama Green Tea you can learn and experience all about it. In a beautiful tea garden, learn how to pick tea leaves at the beginning. At the tea factory, learn in detail the tea leaf production process. For the final pasteurization process, you can try it out with your own hands!

Then you will learn how to enjoy the freshly brewed tea. Matcha experience courses are also available. Sometimes a traditional tea fighting game event which is called "toucha kai" will be held too. This game is to compare tea from a certain region with teas from another region, and guess its identity by observing the appearance, taste and aroma.

You can also try a one-day hands-on tea making course, which demonstrates the traditional hand-rolling process from A to Z. Enjoy the unique experience of Japanese tea!
