A new, never-before-seen train car

Limited Express Laview

Debuted on March 16th, 2019 as "A new, never-before-seen train car," this limited express train runs between Ikebukuro and Seibu-Chichibu Stations on the Ikebukuro Line. Passengers can enjoy the excitement of the journey ahead!

To express "A starting point for the next 100 years," the number "100" was reversed to "001," with "00" expressing an "infinity" that is full of possibilities, and the train was named "001 Series."

The name "Laview" comes from the "L" in a "luxury living" space, "a" for "arrow-like" speed, and the scenic "view" you can enjoy from the large windows. Passengers can sit back and enjoy the ever-changing landscape from the distinctive giant windows and spacious golden-yellow seats, like relaxing in their very own living room.

- Awarded the Blue Ribbon Prize in 2020 by the Japan Railfan Club.
- Curated by the world-renowned architect Kazuyo Sejima.
