Fascinating visitors with 100 years of history

Omiya Bonsai: A World-Class Bonsai Brand

Omiya Bonsai Village, which celebrates its 100 year anniversary in 2025, is a bonsai sanctuary visited by many people from overseas. Visitors can appreciate “Omiya Bonsai” at the gardens and art museum.

大
恩
OMIYA
BONSAI

Affected by the Great Kanto Earthquake, Tokyo bonsai dealers sought a large area of land suitable for growing bonsai and, finding the fresh water and clean air of Omiya to be desirable, moved here and established the Omiya Bonsai Village in 1925.

Each of the 6 bonsai gardens produces distinctly unique bonsai, and the changing seasonal form of the trees delight the heart of every visitor.

Opened in 2010, Omiya Bonsai Art Museum is the world’s first public bonsai art museum. The permanent English-language panels for learning how to view bonsai

and other specialist knowledge are popular with foreign tourists. When you come to Omiya Bonsai Village, we recommend you first visit the Bonsai Art Museum to learn about the history of the Bonsai Village, the types of bonsai and how to view them, and then take a walk around each garden. The museum newly reopened in March 2025, welcoming foreign visitors with a new look.
